The proposed project includes construction of 1 sanitary sewer pump station and the installation of approximately 3,500 L.F of 8-inch gravity sewer line. The new pump stations is needed to replace the existing inadequate and deteriorated existing infrastructure currently in place. The infrastructure will comply with the Environmental Protection Division's minimum standards. The anticipated cost of the project is \$870,000.

The purposes of the public meeting are to:

- 1) Inform the public of the need for improvements to the City's water and sewer system.
- 2) "To comply with Section 391-3-6-.02 of Georgia's Water Quality Control Rules (and amendments thereto)."
- 3) Encourage public involvement in the development of a plan to improve the sewer system.

During the public meeting the City will attempt to identify public preferences for alternative methods of improving the City's sewer facilities. These alternatives will be evaluated and included in the City's Facilities Plan and Environmental Information Document, the major planning document covering the water and sewer system. These documents are available for public inspection through the date of the public meeting at (*116 Savannah Ave, East Dublin, GA 31027*) during the normal business hours.

Your participation is encouraged and considered essential to the selection and development of the final plan to be adopted prior to its approval by the State of Georgia, Department of Natural Resources.

For additional information, contact (*Melissa Bassett or Hayes Hofstadter, East Dublin City Hall*) at (478) 757-1169 or (478) 272-6883.
